

Invision

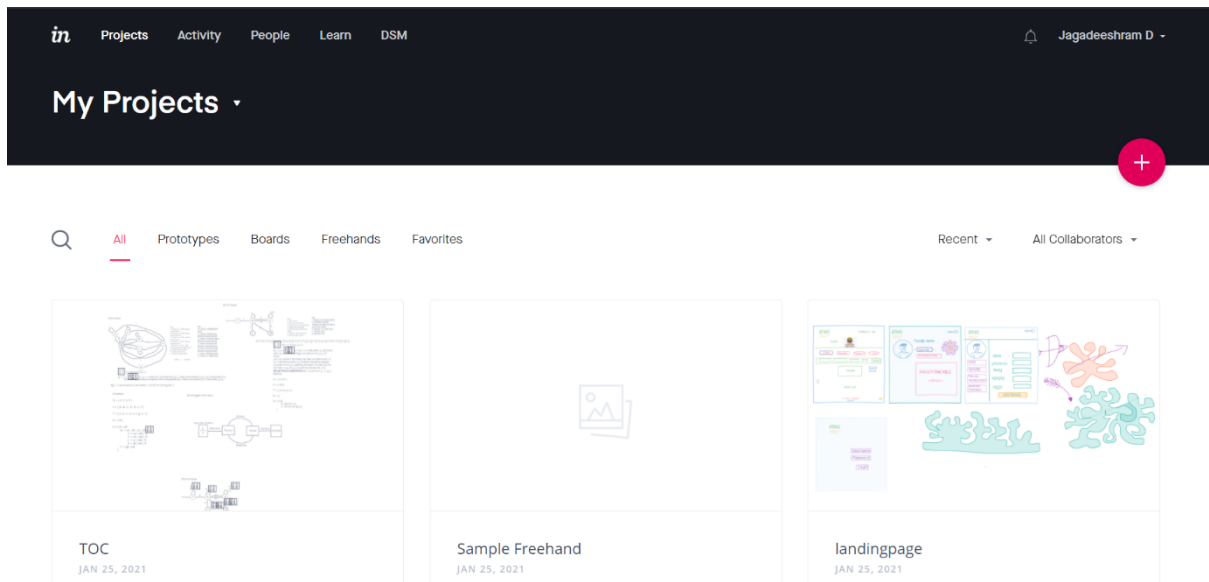

<https://www.invisionapp.com/>

Created for designers, **InVision** is a prototyping, collaboration, and workflow tool. **InVision** gives you clarity, collaboration, and control of everything you need to power your design process. It allows you to create interactive mock-ups efficiently and simply for your wireframes and designs. It is a perfect alternative for physical charts and sticky-notes that can ensure smooth and easy collaboration among the team members to envision and complete the various tasks of the Software Engineering course in a swift manner.

1. Sign up for free or sign in with existing account.

2. On the dashboard, existing freehands (whiteboards) can be accessed and new ones could be created by pressing the '+' button.

3. Choose the project type and give a name. Choose Freehand.

Choose a project type

Prototype
Mock up an interactive experience, manage feedback, and get specs for developers.

Create new prototype

Freehand
Draw, wireframe, and present ideas in real time.

Create new freehand

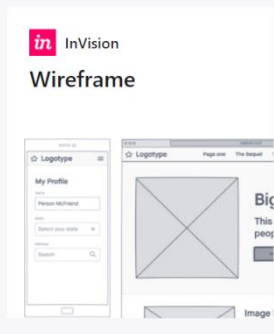

Board
Curate a mood board, design story, or collection.

Create new board

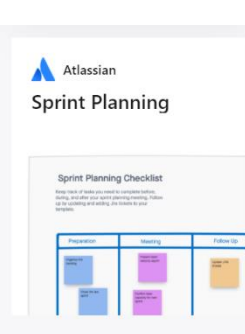

4. A blank template or one of the given can be chosen.

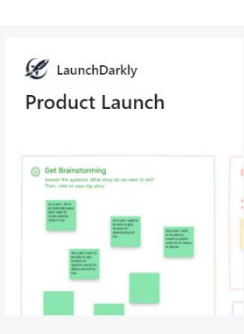

American Express
Customer Journey Map

InVision
Wireframe

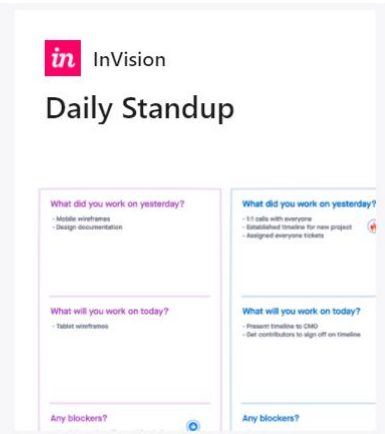

Atlassian
Sprint Planning

LaunchDarkly
Product Launch

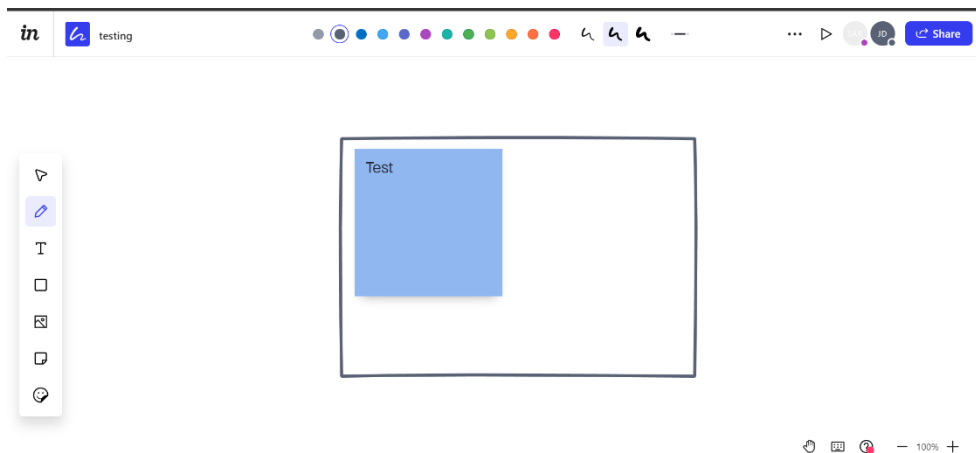

InVision
Retrospective

InVision
Daily Standup

5. The whiteboard opens and can be used.

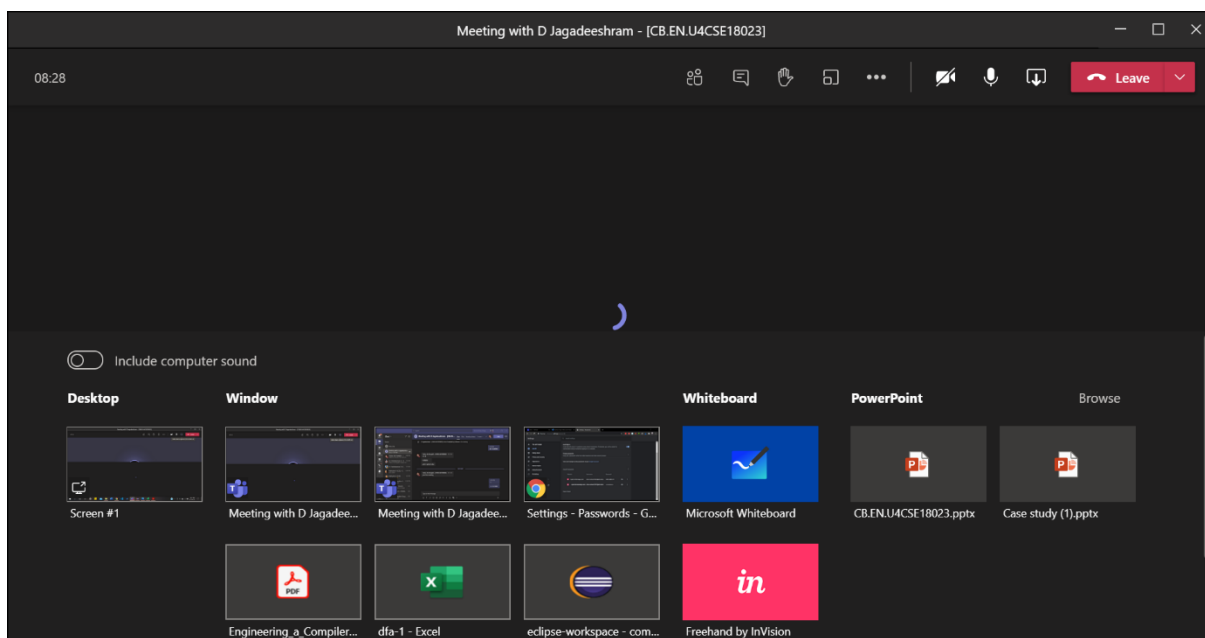

The link to this Freehand can be shared to anyone to collaborate and work together simultaneously as it a cloud-hosted tool. It can also be downloaded as an image file.

Invision App in Microsoft Teams:

<https://support.invisionapp.com/hc/en-us/articles/115005988666-Freehand-whiteboard-for-Microsoft-Teams>

The Freehand can also be shared in a Teams meeting by click the icon on the share tray and signing in. If the app icon isn't available, refer the installation procedure in the above link.

An existing freehand can be added to the meeting or a new one can be created.
